RHEUMATISM

COMMON IN SUMMER

The time to get rid of Rheumatism is in Summer while the blood is endeavoring to purge itself of all poisons and parasites, and the skin is active, with all the pores and glands open and able, in this way, to assist in the elimination.

Columbus, O., 1255 Mt. Vernon, Ave. Six years ago I had a severe attack of Rheumatism, and the doctors prescribed every week and nothing they prescribed seemed to help me. Finally I left off their medicine and began the use of S. S. S. My knee and elbow joints were swollen terribly, and at one time I could not close them when opened. I was getting so I began S. S. S. but as I saw it was helping me I continued it, and today I am a sound, well man and have never had a return of the disease. R. H. CHAPMAN.

The inactivity of the Liver, Kidneys and Bowels causes the refuse matter to remain in the system, which, coming in contact with the different acids of the body, forms uric acid to be absorbed by the blood and distributed to the different joints and muscles, producing the pains, inflammation and other distressing symptoms of Rheumatism. The wandering pains of the disease remind the sufferer that the poison is still in the blood and he should lose no time in getting it out. S. S. S. neutralizes the acid and makes the blood rich and pure. It tones up every organ and cures the disease permanently. S. S. S. contains no harmful minerals to disorganize the system, but while curing the disease builds up every part of the body by its fine tonic effect. Book on Rheumatism and any medical advice desired without charge. THE SWIFT SPECIFIC CO., Atlanta, Ga.

SODA FOUNTAINS TO BE OVERHAULED BY STATE FOOD COMMISSION.

Soda fountains of the insubstantial kind are likely to be overhauled by the State Food Commission. The legislature will be asked to clothe the Commissioner with authority to condemn all fountains not possessing sanitary syrup receptacles and other parts hidden from the public gaze.

It is the decided opinion of many druggists and other soda fountain operators that the ice chamber should be entirely separated from syrups, which should be stored "IN GLASS BOTTLIES IN PLAIN VIEW OF CUSTOMERS."
